

# 024.0/ ECOfloat

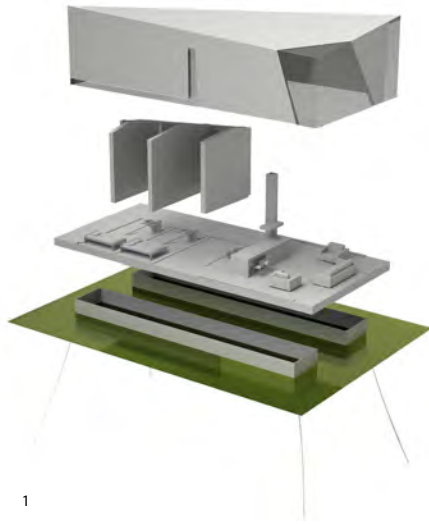

Client: NICE Group  
 Date: April 2007  
 Status: Feasibility stage  
 Value: £150k per unit

## 01 Description

Designed to nestle within a nature reserve on the river Thames, the village helps to enrich the natural environment in which it floats, without distorting the ecological balance of the site. Each home participates in providing energy requirements to the community through active solar technologies.
